

■ Bar Coded Receiving Documents and Pallet Labels

**CAROL
BRAND**

General Cable is pleased to offer **Bar Coded Receiving Documents** and **Pallet Labels** for nearly all General Cable shipments, including Carol® Brand Electronics and Cord & Cordsets, Industrial and Communications products.

The Bar Coded Receiving Documents and Pallet Labels ensure customers a quicker, more efficient procedure when receiving our products, ultimately reducing receiving time and handling while improving accuracy.

General Cable's Bar Coded Documents and Pallet Labels use standard formatting that can be read by customers' existing scanning equipment, allowing them to scan their orders on the dock floor or at their desk. No new equipment is required.

Our Bar Coded Receiving Documents and Pallet Labels provide customers with the following information to increase the accuracy of receipts and reduce hand-keyed errors:

- A clear, easy-to-read list of part numbers
- Quantities
- Purchase order numbers, which can be matched to receipts without searching your system for open orders

The key to a successful partnership is not only keeping our customers wired with quality products but also keeping our customers up-to-speed with the latest technology. ***Demand Better...Expect More™*** from the Carol Brand products you purchase. Bar Coded Receiving Documents and Pallet Labels are a viable solution, ready today.
